The U.S. Weather Bureau suggested
Kitty Hawk, North Carolina. Wilbur took
the parts of the glider to Kitty Hawk early in
Sept 1900. He built a camp at Kill Devil Hill.
Then he began assembling the glider. Toward
end of Sept. he sent for Orville. The glider
was almost ready. After about 2 days of work
the glider was ready. The glider could be
controlled from the ground by means of
long ropes attached to the wings & to the

more. After several unsuccessful flights
William decided to ride it. He lay face
down on the lower wing of the glider. Quite
towards the end of the wing. A man who came to
watch took the other end. They ran down a
road down. At several intervals it landed
safely. After several flights, the machine
returned to Dwyer.

BOXER REBELLION

In China, a widespread
Anti-missionary, Anti-foreign
uprising in the SHAN-TUNG
and other provinces of Northern
China was instigated by the
Chinese society called BOXERS.
Many European missionaries & native
children were murdered. At first, the foreign
emperors opposed the movement but afterwards

Encouraged by Baron von KETTLER,

German minister at Peking was successful.
Great legation was destroyed and no one
foreign refugees within the walls of

the British Legation (in Peking) were brought
Aiding expeditions composed of the U.S., British,

French, German, American and Japanese forces

were organized at Peking. The TAKU forts were

fortified & destroyed. Under Admiral SEYMOUR

(Admiral British navy) an unsuccessful advance

in Peking was made. Most foreign forces at

Peking-Tientsin, PEI-TSANG & YANKING. Finally \$814/00
returned to Peking, brought from the captured vessels
